The Full-time Training in Yangon

Since the beginning of the Full-time training in Yangon in 2007, over 70 trainees have passed through the training. Due to the government's restrictions, the trainees were never able to have an open graduation meeting or go out to preach the gospel.

However, with the opening up of the country, we actually received permission from the government to rent the YMCA hall to hold a graduation meeting at the end of last year. A total of 24 trainees graduated this term. A brother from Singapore came and shared a word on "Living in the Divine Romance to Experience the

Triune God for God's Building". All the saints were greatly encouraged.

Some of the graduating trainees also had the burden to contact people on the streets. To their surprise, not only were they not stopped by the police, but they also led 9 people to be saved and baptized. Praise the Lord! We believe the Lord on the throne is directing everything for the fulfillment of His purpose. Nothing can stop the flow of the divine life.

The International Blending Conference in Kachin State

Back in 2012, it was announced that the International Blending Conference of 2013 would be held in Myitkyina of Kachin State. However, Kachin State was still deep in civil war at the time and it just seemed to be the last place where a conference could be held. But the saints kept praying. And at the beginning of last year, the civil war which lasted for close to 50 years gradually came to an end and ceasefire talks began. This made it possible for close to 450 saints from 6 countries to be gathered together from November 29 to December 1. The brothers spoke on "The Completing Ministry of Paul", bringing all the saints into the rich supply of the ministry. God's speaking overcame the negative outward situations and brought the light of life to this land.

Preaching the Gospel at SEA Games

From December 11 to 22 of last year, the biennial Southeast Asian Games (SEA Games) was held in Myanmar. This was the first time in more than 40 years that Myanmar was given the hosting rights due to the country's closed condition; the last time it hosted the SEA Games was in 1969. The games were mostly

held in the capital city of Naypyidaw; some were held in Yangon and Mandalay. About 30,000 people gathered together to watch the games.

The Lord led us to grasp this opportunity to preach the gospel. We printed gospel tracts, and during the 10-day

period, 44 full-time trainees and trainers went to Naypyidaw and contacted those who came to watch the games. The saints in Yangon and Mandalay also handed out "The Mystery of Human Life" in those two cities.

The venues in all three cities were heavily guarded by security guards and policemen. This was the first time for many of the saints to preach the gospel in such an open way, but they were bold in their spirits and did not shrink back. Under the Lord's protection and preservation, we cooperated with the Lord with peace and joy and handed out close to 30,000 gospel tracts in total. Praise the Lord!

Bangladesh

The Church in Dhaka

We thank all the saints for your intercession. After several months of turmoil, the political situation in Bangladesh has calmed down and the saints are now able to lead a quiet and tranquil church life.

The Lord's recovery in Bangladesh began 6 years ago. As of today there are 40 churches with over 1,800 saints in this country. Our goal is to gospelize Bangladesh by year 2020 and bring the number of saints to 200,000. Currently we have two weekly Table meetings in Dhaka, one in the brothers' house on Friday and the other in the sisters' house on Lord's Day. In February, all the saints helped with joy in the preparation of the first wedding meeting ever in the Lord's recovery in Bangladesh. The brother was the first local person gained in this country when the saints first began propagating here in 2006. He was just a college student at the time. The saints were full of joy to see him start a family.

In addition, some Christians in Gazipur-Konabari also began to practice the church life through the continual labor of a brother, who contacted the saints in Dhaka and entered the church life over a year ago. At the end of last year, 6 brothers and sisters visited us from South Korea and we went there together. While we were there, we came into contact with two leaders of a Christian group. When they heard the brothers share the truth on the gospel and the church and found out that we practice the church life according to the teachings of the Bible, not belonging to any denomination, they were agreeable and willing to follow what the Bible says.

Beginning from January, we have been in regular contact with 5 families. May the Lord add these families to the church.

Chittagong

The brothers in the brothers' house here pursue on a daily basis "Holy Word for Morning Revival — Nourishment for New Believers", attend the prayer meetings on Tuesdays, and get into "Life Lessons" on Saturdays. They have experienced growth in life through such regular eating and drinking. A brother told us that he couldn't understand the Bible before. But now by having morning revival everyday, he receives much light and enjoyment from reading the Lord's word. The brothers also invite their friends and classmates to the saints' homes every Saturday for a time of singing, sharing, and gospel preaching. So far we have contacted over 60 students and 3 of them got baptized. Besides this, we also contacted several students in a local international college. Their hearts were simple and open to the gospel. May the Lord gain them to be seeds of the gospel.

Recently we invited 10 saints for a love feast and got into the messages on "What Are We" and "The Lord's Recovery" in order to help them know the Lord's recovery and appreciate this ministry. On February 21, we held a gospel meeting and 33 people came. Following this was the first Lord's Table Meeting in Chittagong. We truly are joyful to see the stream of the Lord's

◆ Wedding Meeting

move here.

Gospel Move in Southern Bangladesh

Six FTTS trainees came to coordinate with the local saints to preach the gospel in southern Bangladesh last November.

Two brothers from Khulna District had the burden to bring their relatives and friends to salvation and know the truth. They led us to visit 7 towns in 5 days and preach the gospel to over 530 people. Then for the next 4 days we went to Satkhira. A brother there was driven out from his family after he believed in the Lord, but he was still full of burden to preach the gospel in that area. We visited 8 villages with our brother and contacted over 400 people. A new believer received the gospel and went around with us to preach the gospel for all 4 days. The people there were very open to the Lord. Many of them not only called on the Lord with us, but also invited us to come again.

India

Propagation by the College Students from Taipei

At the end of January, 26 college students from the church in Taipei participated in a gospel move in New Delhi for 10 days. They spent most of the time on the North Campus of the University of Delhi. During this period of time, 22 young people, mostly college students, were baptized.

While the students from Taiwan were there, the local saints went out with them in groups. What they did on campus was just open their Bible, share a verse with the local students, and invite them to the meeting hall or a designated place for more fellowship.

The University of Delhi has one of the largest student bodies in the world, with about 300,000 students. This is also a vast "fish pond". The students were very open to the gospel, and most of them were willing to stop and listen to the saints. Many of them accepted the invitation to have more fellowship. They read the Bible, sang hymns, enjoyed the love feast with the saints, and just believed in the Lord in a simple way and got baptized one by one.
